

SKYLIGHT PR

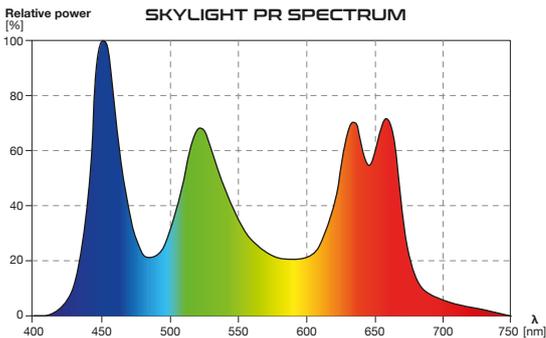

PR-40

PR-60

PR-80

Bring more color to your planted vivarium!

FEATURES

LOW HEAT

The **SKYLIGHT PR-40**, **PR-60** and **PR-80** lamps were designed in a different way, than majority of vivarium/terrarium dedicated lighting products.

INTENSE COLORS

Terrarium lamps are usually oriented around high brightness. In some more advanced products brightness is somewhat compromised for high colour rendering index (CRI).

PHOTOSYNTHETICALLY ACTIVE RADIATION

In PR-40, PR-60 and PR-80 lamps both mentioned above parameters are compromised to achieve vivid intense colours. Large portion of deep red light in the spectrum triggers phytochromes of plants to produce colourful protective pigments, while RGB based spectrum of the lamp allows the user to see his planted terrarium with deeper, more intense coloration.

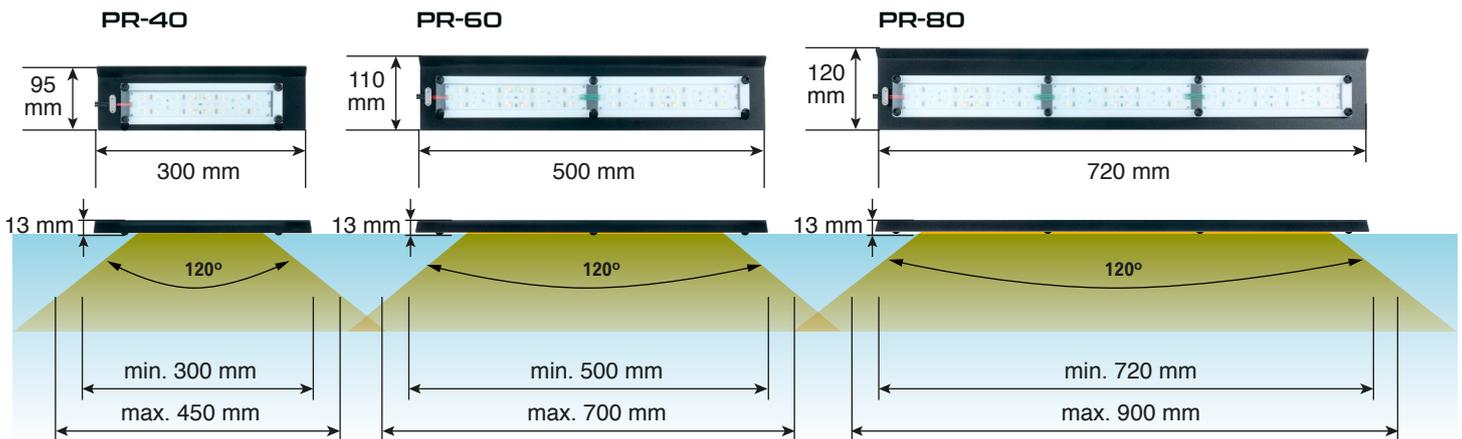

DIMMABLE

COLOUR TEMPERATURE ADJUSTMENT

Additionally glaring has been brought to the minimum in this product making looking on your vivarium a pure pleasure!

PARAMETERS

	PR-40	PR-60	PR-80
Dimensions:	30 x 9,5 cm	50 x 11 cm	72 x 12 cm
Power rating:	18 W	36 W	54 W
Luminous flux:	1500 lm	3000 lm	4500 lm
Colour temperature:	5000 - 15000 K	5000 - 15000 K	5000 - 15000 K
Voltage rating:	12 V DC	12 V DC	12 V DC
Current rating:	1,5 A	3 A	4,5 A
Suggested terrarium length	min. 30 - max. 45 cm	min. 50 - max. 70 cm	min. 72 - max. 90 cm
